EDUCATION

John Jay College of Criminal Justice

New York, NY

Bachelor of Science, 3.51 GPA

Aug. 2017 - May 2021

EXPERIENCE

Full Stack Web Developer - MERN

May 2023 - Present

Freelance

New York, NY

- Crafted exceptional web experiences by building responsive, accessible, and scalable applications with a mobile-first design philosophy.
- Led creative direction for branding initiatives, providing high-quality graphic design support for promotional materials such as flyers and advertisements.

Emerging Full-Stack Developer - Coding Bootcamp

May 2022 – May 2023

The Odin Project

Online

- Successfully completed The Odin Project's Full Stack Web Development curriculum, supplemented by over 30 independent projects, demonstrating proficiency in MongoDB, Express.js, React and Node.js (MERN).
- Displayed proficiency in crafting responsive modern designs to ensure seamless user experiences across both mobile and desktop platforms.
- Applied accessibility standards, showcasing dedication to inclusive, user-friendly design.

Transportation Security Officer

Dec. 2021 – May 2022

U.S. Department of Homeland Security

New York, NY

- Operated advanced screening equipment and technology, showcasing adaptability and a strong desire for learning new technologies.
- Applied critical thinking skills to assess potential threats, demonstrating a logical and analytical mindset.

Research Associate - Security Management

June 2020 - Feb. 2021

John Jay College of Criminal Justice

New York, NY

- Ensured accuracy, currency, and professional formatting of course materials for use in university classrooms.
- Collaborated with industry professionals on research, enriching course materials with real-world insight.
- Optimized revision workflows using macros in Excel for efficient data organization.

Projects

New York Bagels Club | React, TypeScript, Express.js, Node.js, Heroku, MongoDB, Stripe Oct. 2023 – Jan. 2024

- Utilized Screaming Frog for competitor analysis and SEO enhancements, while applying insights from Google Search Console for indexing and page performance recommendations.
- Integrated with the Stripe API to offer a wide range of payment options and ensure secure order processing.
- Collaborated closely with stakeholders, including the business owner, to design and develop a website aligned with the brand's vision.

Pass Ninja | React, TypeScript, Node.js, Express.js, Heroku, MongoDB

July 2023 – Jan. 2024

- Developed Pass Ninja, an innovative password manager incorporating JWT tokens for session management, bcrypt for password encryption, and uniquely generated QR codes to offer 2FA integration.
- Designed and crafted an intuitive, user-friendly interface with a strong emphasis on educating users.

Where's My Package | React, TypeScript, Node.js, Express.js, Heroku

Apr. 2023 – Present

- Integrated dynamic data aggregation, unifying information from separate official and community software package repositories APIs based on user-defined search queries.
- Implemented modern responsive web design principles and strictly adhered to Arch Linux's official branding styling rules, ensuring a consistent user experience in alignment with the brand's standards.
